Summary

Motivated B.Tech CSE (AI ML) student at SRM Institute of Science and Technology with a GPA of 9.6, seeking opportunities to apply expertise in machine learning, NLP, and full-stack development. Passionate about building intelligent systems with real-world impact, with hands-on experience across data analytics and RD internships in India and China. Actively contributing to AI/ML communities through CodeNex Club and HackerRank Campus Crew.

Education

SRM Institute of Science and Technology	B.Tech, CSE (AI & ML)	2024 – 2028
GPA: 9.6/10.0		
St. Mary's Sr. Sec. School, Udaipur	Class XII, CBSE	2024
Percentage: 87.6%		
St. Mary's Sr. Sec. School, Udaipur	Class X, CBSE	2022
Percentage: 91.2%		

Skills

Languages:	Python, JavaScript, TypeScript, C++, Java, HTML5, CSS3
AI/ML:	TensorFlow, PyTorch, Scikit-Learn, Pandas, NumPy, OpenCV, Hugging Face Transformers, LangChain, YOLO
Web Frameworks:	React, Next.js, Node.js, FastAPI, Flask, Express.js, Tailwind CSS
Databases:	MongoDB, PostgreSQL, MySQL, Redis, Supabase
Cloud & DevOps:	AWS, Google Cloud Platform, Docker, Vercel, Git
Blockchain:	Solidity, Ethereum, Smart Contracts, Web3.js, Hardhat, IPFS
Tools:	Jupyter Notebook, Figma, Postman, VS Code

Work Experience

AI/ML Engineer	June 2026 – Present
<i>Namo Labs, India</i>	

- Developed and enhanced AI-driven features for DAFS products, leveraging machine learning and data analytics to improve system intelligence and automation.
- Partnered with product and engineering teams to develop intelligent systems, improving operational efficiency, prediction accuracy, and user experience.
- Designed and optimized end-to-end data pipelines, feature engineering workflows, and model deployment processes for scalable AI applications.

Data Analytics Intern	June – July 2025
<i>YRCAIRI TECH (OPC) PVT. LTD, India</i>	

- Data cleaning, transformation and visualization on structured datasets using Python (Pandas, Matplotlib, Seaborn).
- Actionable business insights were extracted from raw data to support strategic decision-making workflows.
- Delivered multiple analytics reports covering trend analysis and KPI tracking for internal stakeholders.

Industrial Machinery Intern	June – July 2025
<i>HUALONG MACHINERY CO. LTD, China</i>	

- Gained exposure to hardware-software integration in industrial manufacturing systems.
- Studied control mechanisms and mechanical design workflows in a production environment.

R&D Engineering Intern	December 2025 – January 2026
-----------------------------------	------------------------------

Foshan Shuoyu Machinery R&D Co., Ltd, China

- Worked on quartz manufacturing machinery including cutting and polishing systems.
- Developed understanding of the integration between mechanical, electrical, and software subsystems.

Certifications

- **Generative AI on AWS** — AWS Academy, April 2026
[View Certificate](#)

Projects

BhoomiLedger — Blockchain Land Registry System 2024
Next.js, Node.js, MongoDB, Solidity, Polygon Amoy Testnet, Web3.js — Top 10 at Cad 4.0 by Coding Ninjas

- Built a decentralized land record management system using Ethereum smart contracts for immutable ownership storage.
- Designed end-to-end transaction workflows including ownership verification and fraud prevention logic.
- Integrated a Python FastAPI AI fraud detection module using Random Forest for anomaly detection.

CapIntel — MSME Financial Risk Scoring System 2024
Python, FastAPI, Next.js, Logistic Regression — Top 5 at Dr. Dev Hackathon by E-Cell

- Built a credit risk scoring framework evaluating MSMEs using DSCR, EBITDA, leverage ratios, and sector risk exposure.
- Translated raw financial data into an explainable risk score for capital suitability and creditworthiness assessment.

ScanSnap — AI Food Barcode Scanner 2024
Next.js, FastAPI, Supabase, Groq LLaMA

- Built a food product scanner that parses barcode data and uses an LLM to generate health insights.
- Deployed on Vercel with Supabase as the backend database; integrated Groq's LLaMA for inference.

Technical Involvement

- **AI/ML Associate, CodeNex Club** — **SRM IST:** Building AI projects, conducting technical workshops, and leading club initiatives in machine learning and applied AI.
- **Technical Member, HackerRank Campus Crew** — **SRM IST:** Organizing competitive programming events and coding challenges on campus.
