Portfolio

Summary

B.Tech Computer Science (AI ML) student at SRM Institute of Science and Technology with a 9.6 GPA and hands-on experience in machine learning, data analytics, full-stack development, and AI product engineering. Proven experience through internships across India and China, developing AI-driven solutions, data pipelines, and intelligent applications. Skilled in Python, TensorFlow, PyTorch, FastAPI, and modern web technologies, with a strong interest in building scalable AI systems that solve real-world problems.

Education

SRM Institute of Science and Technology	B.Tech, CSE (AI & ML)	2024 – 2028
GPA: 9.6/10.0		
St. Mary's Sr. Sec. School, Udaipur	Class XII, CBSE	2024
Percentage: 87.6%		
St. Mary's Sr. Sec. School, Udaipur	Class X, CBSE	2022
Percentage: 91.2%		

Skills

Languages:	Python, JavaScript, TypeScript, C++, Java, HTML5, CSS3
AI/ML:	TensorFlow, PyTorch, Scikit-Learn, Pandas, NumPy, OpenCV, Hugging Face Transformers, LangChain, YOLO
Web Frameworks:	React, Next.js, Node.js, FastAPI, Flask, Express.js, Tailwind CSS
Databases:	MongoDB, PostgreSQL, MySQL, Redis, Supabase
Cloud & DevOps:	AWS, Google Cloud Platform, Docker, Vercel, Git
Blockchain:	Solidity, Ethereum, Smart Contracts, Web3.js, Hardhat, IPFS
Tools:	Jupyter Notebook, Figma, Postman, VS Code

““latex

Work Experience

AI/ML Engineer	June 2026 – Present
<i>Icebrkr</i>	

- Building the IB Map, an AI-driven knowledge graph for intelligent mapping and contextual information discovery.
- Implementing machine learning workflows for data integration, semantic relationship analysis, and graph-based insights.
- Optimizing AI pipelines to support scalable knowledge retrieval and real-time intelligence generation.

AI/ML Engineer	June 2026 – Present
<i>Namo Labs, India</i>	

- Developed AI-driven features for DAFS products using machine learning and data analytics.
- Collaborated with cross-functional teams to improve system intelligence and user experience.
- Built scalable data pipelines and supported model deployment workflows.

Summer Trainee	June 2026 – Present
<i>PyroTech Electronics Pvt. Ltd., India</i>	

- Contributed to an industrial operations platform for failure monitoring and incident tracking.
- Developed backend services, APIs, and database components for data processing.
- Supported analytics and AI workflows for operational insight and reporting.

Data Analytics Intern

June – July 2025

YRCAIRI TECH (OPC) PVT. LTD, India

- Data cleaning, transformation and visualization performed using Python.
- Extracted business insights from structured datasets for decision-making.
- Creating analytics reports for trend analysis and KPI tracking.

Industrial Machinery Intern

June – July 2025

HUALONG MACHINERY CO. LTD, China

- Industrial manufacturing systems and hardware-software integration studied.
- Gained exposure to control systems and mechanical design processes.

R&D Engineering Intern

December 2025 – January 2026

Foshan Shuoyu Machinery R&D Co., Ltd, China

- Worked with quartz processing machinery and production systems.
- Learned integration of mechanical, electrical, and software components.

Certifications Courses

- **Generative AI on AWS** — AWS Academy, April 2026
[View Certificate](#)
- **Machine Learning Foundations** — AWS Academy, June 2026
[View Certificate](#)
- **Exploring SAP Business Technology Platform** — SAP, June 2026
[View Certificate](#)
- **Applying AI-powered Visualizations and Augmented Analytics to Business Data in SAP Analytics Cloud** — SAP, June 2026
[View Certificate](#)
- **Deep Learning Onramp** — MATLAB, June 2026
[View Certificate](#)
- **Machine Learning Onramp** — MATLAB, June 2026
[View Certificate](#)

Projects

BhoomiLedger — Blockchain Land Registry System 2024

Next.js, Node.js, MongoDB, Solidity, Polygon Amoy Testnet, Web3.js — Top 10 at Cad 4.0 by Coding Ninjas

- Built a decentralized land record management system using Ethereum smart contracts for immutable ownership storage.
- Designed end-to-end transaction workflows including ownership verification and fraud prevention logic.
- Integrated a Python FastAPI AI fraud detection module using Random Forest for anomaly detection.

CapIntel — MSME Financial Risk Scoring System

2024

Python, FastAPI, Next.js, Logistic Regression — Top 5 at Dr. Dev Hackathon by E-Cell

- Built a credit risk scoring framework evaluating MSMEs using DSCR, EBITDA, leverage ratios, and sector risk exposure.
- Translated raw financial data into an explainable risk score for capital suitability and creditworthiness assessment.

Technical Involvement

- **AI/ML Associate, CodeNex Club** — **SRM IST**: Building AI projects, conducting technical workshops, and leading club initiatives in machine learning and applied AI.

- **Technical Member, HackerRank Campus Crew — SRM IST:** Organizing competitive programming events and coding challenges on campus.
