SUMMARY

Motivated B.Tech CSE (AI & ML) student at SRM Institute of Science and Technology with a GPA of 9.6, seeking opportunities to apply expertise in machine learning, NLP, and full-stack development. Passionate about building intelligent systems with real-world impact, with hands-on experience across data analytics and R&D internships in India and China. Actively contributing to AI/ML communities through CodeNex Club and HackerRank Campus Crew.

WORK EXPERIENCE

Summer Intern - HUALONG MACHINERY CO LTD,CHINA June-July 2025

Acquired practical experience in industrial machinery systems, emphasizing mechanical design, control mechanisms, and seamless coordination between hardware and software in modern manufacturing environments.

Intern - YRCAIRI TECH (OPC) PVT. LTD June-July 2025

Worked on multiple data analytics projects focused on data cleaning, visualization, and interpretation. Acquired practical experience with analytical tools and techniques to extract meaningful insights from structured datasets, enabling informed and strategic decision-making.

Intern - Foshan Shuoyu Machinery R & D Co., Ltd Dec 2025- Jan 2026

Mechanical Engineering Intern with exposure to quartz manufacturing machinery, including cutting and polishing systems. Developed understanding of machine design, control mechanisms, and integration of mechanical, electrical, and software systems in industrial applications

PROJECTS

CapIntel

Built a financial readiness scoring framework using core credit underwriting metrics such as cash flow sustainability, EBITDA and margin analysis, DSCR, leverage ratios, business maturity, and sector risk exposure to evaluate repayment capacity and overall financial stability. The framework translates raw financial data into an explainable risk score, enabling structured assessment of creditworthiness, eligibility determination, and capital suitability for MSMEs and early-stage businesses.

BhoomiLedger

BhoomiLedger is a blockchain-based land record management system developed to ensure secure and transparent property transactions. The platform uses Ethereum smart contracts to store immutable ownership records and prevent fraud, while a Next.js frontend and Node.js backend manage user interactions and verification workflows. MongoDB is used for off-chain data storage, and Web3 integration enables secure transaction handling and ownership transfer tracking.

EDUCATION

2024 - 2028	Bachelor's Degree in CSE W/S AIML at S.R.M.I.S.T, KTR, Chennai	(GPA: 9.6/10.0)
2023 - 2024	Class 12th CBSE at St. Marys Sr. Sec. School, Udaipur	(87.6)
2021 - 2022	Class 10th CBSE at St. Marys Sr. Sec. School, Udaipur	(91.2)

SKILLS

Languages:	Python, JavaScript, TypeScript, C++, Java, HTML5, CSS3
AI/ML:	TensorFlow, PyTorch, OpenCV, Hugging Face, LangChain, YOLO, Pandas, Scikit-Learn
Frameworks:	React, Node.js, FastAPI, Flask, Express, Tailwind, shadcn/ui
Cloud, DB & Infra:	AWS Services, MongoDB, PostgreSQL, Redis, Docker, Kubernetes, Supabase, Apache Hadoop, Apache Spark, Google Cloud, Cassandra, MySQL
Blockchain:	Solidity, Smart Contracts, Ethereum, Web3.js, Hardhat, IPFS, DeFi
Tools:	VS Code, Jupyter, Figma, Postman, Vercel, Databricks, Git

TECHNICAL INVOLVEMENT

CodeNex Club:	AI/ML Associate — Building AI projects, conducting workshops, and contributing to the club's technical initiatives at SRM IST
HackerRank Campus Crew:	Technical Member — Organizing coding challenges, promoting competitive programming, and representing HackerRank at SRM IST
