Summary

B.Tech Computer Science (AI and Machine Learning) student at SRM Institute of Science and Technology, **9.62/10.0 GPA**. Currently a research intern at the **IIT Bombay Deep Learning Lab**, sole developer of a location intelligence module at Icebrkr, and AI/ML lead on a forensics platform at Namo Labs. Most of my work is backend: REST APIs, relational database schemas, and moving models from prototype to production. Strongest in Python, Java, C++, and SQL.

Technical Skills

Languages:	Python, Java, C++, JavaScript, TypeScript, SQL, Solidity, Bash
Backend and APIs:	FastAPI, Flask, Node.js, Express.js, REST API design, GraphQL, JWT authentication, microservices
Databases:	PostgreSQL, MySQL, MongoDB, Redis, schema design, query optimization, indexing, normalization (3NF)
AI and Machine Learning:	TensorFlow, PyTorch, Scikit-Learn, Pandas, NumPy, OpenCV, Hugging Face Transformers, LangChain, feature engineering, model deployment, NLP, LLMs
Cloud and DevOps:	Amazon Web Services (AWS), Google Cloud Platform (GCP), Docker, Git, GitHub Actions
Frontend and Web3:	React, Next.js, Tailwind CSS, Ethereum, smart contracts, Web3.js
Practices:	Data Structures and Algorithms, system design, object-oriented programming (OOP), unit testing, Agile, CI/CD, Linux

Work Experience

Software Engineer Intern, AI/ML June 2026 - Present
Icebrkr

- **Sole developer** of a privacy-first location intelligence module in a **19-module platform**, owning architecture through deployment with **80 percent unit test coverage**.
- Designing a dual-path on-device and cloud inference pipeline for routing, geofencing, and point-of-interest surfacing under data-residency rules.

AI/ML Engineer Intern June 2026 - Present
Namo Labs, India

- **Leading AI/ML delivery** for a digital asset forensics platform, coordinating **7 parallel workstreams** across a cross-functional team.
- Defining **module interface contracts** across 7 components and overseeing model deployment for entity resolution, wallet clustering, and risk scoring.

Full-Stack Software Engineer Intern June 2026 - July 2026
PyroTech Electronics Pvt. Ltd., India

- Delivered a full-stack industrial QA and machine-health monitoring platform, designing the relational schema and SQL queries behind all reporting.
- Built role-based access control, inspection workflows, and a dashboard tracking uptime across **32 machines**.

Data Analytics Intern, YRCAIRI TECH (OPC) PVT. LTD, India June 2025 - July 2025

R&D Engineering Intern, Foshan Shuoyu Machinery R&D Co., Ltd, China Dec 2025 - Jan 2026

Industrial Machinery Intern, HUALONG Machinery Co. Ltd, China June 2025 - July 2025

Research

Research Intern 2026 - Present
Deep Learning Lab, **Indian Institute of Technology (IIT) Bombay**

- Researching **parametric and contextual knowledge conflict** in large language models and its effect on decision making.

Undergraduate Research (UROP) Aug 2025 - July 2026
SRM Institute of Science and Technology

- Built **machine learning recommendation systems** for e-commerce using collaborative filtering and content-based approaches to improve product discovery.

Projects

SIP Management System, Full-Stack Investment Tracking Platform Next.js, Express.js, MySQL, Node.js

- Architected a platform with JWT authentication, bcrypt hashing, and a normalized schema (**9 tables, 3NF**) with cascading foreign keys and a MySQL trigger for status updates.
- Designed **25+ RESTful API endpoints** using parameterized SQL with multi-table joins and aggregation, plus a node-cron pipeline (Yahoo Finance API) refreshing market prices every 15 minutes.

BhoomiLedger, Blockchain Land Registry System Solidity, Next.js, MongoDB, Python, FastAPI

- Decentralized land record system using Ethereum smart contracts for immutable ownership storage, with a Python FastAPI Random Forest service for fraud detection. **Top 10 at Cad 4.0 by Coding Ninjas**.

CapIntel, MSME Financial Risk Scoring System (Python, FastAPI, Scikit-Learn). Explainable credit risk scoring on DSCR, EBITDA, and leverage ratios. **Top 5 at Dr. Dev Hackathon by E-Cell**.

Education

SRM Institute of Science and Technology B.Tech CSE (AI and ML), GPA **9.62/10.0** 2024 - 2028
St. Mary's Sr. Sec. School, Udaipur Class XII CBSE 87.6 (2024), Class X CBSE 91.2 (2022)

Certifications and Involvement

- GenAI on AWS, ML Foundations (AWS Academy). DL Onramp, ML Onramp (MATLAB), SAP BTP. All 2026.
- AI/ML Associate, **CodeNex Club**, SRM IST. Technical Member, **HackerRank Campus Crew**.
